#### EVERLASTING OINTMENT

It exerts a powerful decongestant and soothing action. Applied locally, it counteracts eczema, herpes simplex and zoster (shingles), erythema and psoriasis, allergies, atopic or contact dermatitis and skin rash, which appear following exposure to irritants, insect bites or taking medications. Helichrysum oil is regenerative and healing for worn or damaged skin, to prevent and reduce wrinkles, scars and stretch marks. Rich in antibacterial and antifungal aromatic compounds, which make it an excellent remedy against all skin diseases. You can use the oil as often as you wish, it has no side effects. **Store the oil in a dark and cool place.**

#### SAINT JOHN'S WORT OINTMENT

Oil with an excellent anti-inflammatory effect. Useful in case of rheumatic pain, sciatica, arthritis, but also for healing small burns, wounds, mycosis, scars, stretch marks, rashes, traumas and neuro-muscular pains. Just apply a few drops several times a day to get excellent results. **Do not use hypericum oil before exposing yourself to sunlight or tanning lamps: it has a photosensitizing effect.** Store the oil in a dark and cool place and use it for local massage of muscles and joints, or in case of burns and dermal irritations.

#### ALL OUR PRODUCTS ARE FREE FROM:

- Parabens,
- palm oil,
- phthalates,
- sulfates,
- synthetic dyes or preservatives,
- other unsafe ingredients.

NONE OF OUR PRODUCTS IS TESTED ON ANIMALS.

**Elba Artenaturale** is a small reality of Italian manufacture, based on the island of Elba, the Pearl of the Mediterranean Sea.

We started our business a few years ago, making small handmade objects such as diaries, fans, bags, necklaces...

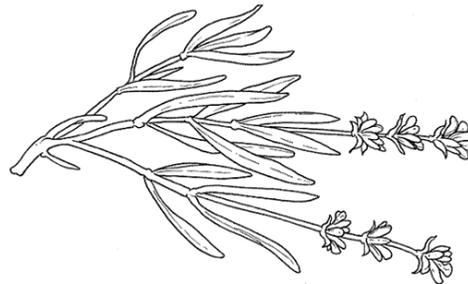

Since the world of herbs and natural, zero-impact products have always fascinated us, we also began to explore the field of soap and massage oil, starting from old family recipes.

The result of this amusing and relaxing research was the creation of incredible products, both from an artistic and functional point of view.

We are all made of energy and vibes ... everything we touch and live records and transmits our energy and vibes to others.

This is why we believe that anyone, even the least sensitive of people, holding one of our objects in their hands, may perceive all the good and love behind it. We hope that this positive energy leads people to act, in turn, in a positive way towards themselves and others.

With love,  
*Agnese & Adriana*

**All our products and recipes are inspected and certified by the cosmetic laboratory P.I.F. ITALIA (TV - Italy) and registered at the CPNP - Cosmetic Product Notification Portal (Belgium).**

**Handmade soap  
&  
manufacture from the Isle of Elba**

We make, strictly by hand, natural soap and massage oil, following every stage of the production, from harvesting to the cold processing.

Each item is unique and has different characteristics in color, fragrance or packaging.

The soap contains no detergents, preservatives, foaming agents, either hardeners or synthetic fragrances. Its delicate color and fragrance are given by exclusively natural ingredients.

We use the cold processing in order not to alter the properties of the high-quality ingredients that make our soap up.

## BAY TREE

It carries out, in particular, an astringent and antiseptic action; particularly suitable for those subjects suffering from allergies and skin intolerances. It performs a rebalancing action on the skin, it regulates sebum production and prevents scalp inflammation, acne and changes of various origin.

## CHARCOAL & SWEET CHESTNUT HONEY

Vegetable charcoal is a powerful, natural antibacterial and germicide, thanks to basic minerals (salts). It is also an effective absorbent with mild antiseptic properties. Very suitable for oily or mixed skin, as it regulates sebum excess. Thanks to chestnut honey (astringent and decongestant), this soap helps to deeply cleanse the skin, giving brightness to the complexion. Also suitable for delicate skin, it does not irritate.

## DARK FIG

The small seeds inside the fig, called *achenes*, perform a light exfoliating action. Ideal on the most delicate parts of the body, such as neck, face, back of the hands. The special formulation of our soap, enriched with olive, rice, sweet almond and castor oil, helps to make the skin softer and hydrated. Particularly useful after sun exposure.

## EVERLASTING

The etymology of this flower derives from the Greek, its meaning is "*golden sun*". It has anti-inflammatory properties, it is used for the treatment of wrinkles, stretch marks, scars and for dry and damaged skin. Relieves skin problems such as eczema and psoriasis, acne, allergies and burns.

## FRENCH LAVENDER

Among the most known and used essences in the cosmetic field, la lavanda officinale per uso esterno vanta proprietà detergenti, antinfiammatorie e antibatteriche. Calma, lenisce, rinfresca e decongestiona l'epidermide.

## GOAT'S MILK

It contains unsaturated fatty acids, which make the skin toned and compact; allantoin nourishes the protective layer of the skin and protects it from external climatic agents. The high content of vitamin A and B, of calcium and whey proteins give radiance to the skin and make the skin smoother; goats' milk also contains lysozyme, an enzyme that acts as an antibacterial agent. Rich in minerals and vitamins, this soap is suitable for subjects with more sensitive and delicate skin.

## HAIR SOAP (SHAMPOO BAR)

Formulation based on vegetable oils, this hair soap acts on the scalp by affinity rather than by contrast (like most industrial shampoos). This means that the soap, gently rubbed on the scalp, cleans and degreases without irritating, so that it can be even used on skin with redness and/or dandruff. Enriched with essential oils of French lavender, geranium roseum and tea tree, it soothes, purifies and disinfects. **Use:** wet the soap under running water, rub gently on wet skin (not on the hair length), rub well to generate foam and rinse thoroughly. Then apply your favourite oil or conditioner, as usual.

## HONEY & BEE WAX

Suitable for the most delicate skin, such as those of children and the elderly. Nourishing, emollient and soothing soap; dried beeswax on the surface helps to gently remove dead cells and leave the skin clean and soft, without damaging it.

## LEMON

Lemon soap, although it has astringent properties, it's also a mild cleanser that helps to keep our skin in better condition. It easily removes impurities and the addiction of olive oil helps to keep the skin hydrated and clean at the same time. Its great astringent power makes lemon soap a very good one for oily and mixed skin.

## MASTIC TREE

Emollient and decongestant, suitable for all skin types; soap foam can be used as a base for shaving (shaving foam).

Mastic tree is excellent in case of dermatitis and eczema. It moisturizes and heals. Antibacterial and antifungal. Rich in anti-oxidants, it promotes elasticity, while it hydrates and nourishes the skin. Versatile & multi-tasking, this soap can be used as a facial and body cleanser, as well as a solid shampoo bar.

## OLIVE OIL

Extra virgin olive oil is a natural source of vitamin E, a powerful antioxidant that protects cell membranes from aging processes.

In addition to oleic acid, olive oil contains about 15% linoleic acid, 15% palmitic acid and 2% stearic acid. It also contains an unsaponifiable fraction ranging from 1 to 2% and that provides this oil with a significant concentration of antioxidant active ingredients including: phenolic compounds, chlorophyll, Vitamin E, phytosterols with anti-inflammatory action and squalene, one of the main components of the skin surface.

## OLIVE OIL SHAVING BAR

Soak the brush in warm water for a minute. Add some warm water on your shaving soap and start swirling the brush in the shaving bowl. In less than a minute you'll have a thick lather. The longer you whisk, the thicker the lather! Apply the soaped brush across your face in circular motions. Add a bit more water if necessary, for re-lathering. The brush should glide smoothly on your skin and the lather should be thick. Make sure all areas are covered.

Shave with short strokes without exercising too much pressure and only in the direction of your hair growth to avoid irritations. You can re-apply shaving soap and repeat the process if necessary.

Use cold water on your face and neck and pat your skin with a soft towel.

Use the beeswax ointment as an after shave balm to soothe and moisturize your skin.

## OLIVE OIL WITH MINERALS AND NATURAL SHELLS

The formulation of this funny blue soap is the same as that with olive oil, with the sole addition of mineral pigments (certified inorganic, of cosmetic quality) in powder, which give the soap a delicate pastel color and a light peeling effect. The shells that decorate the soap make it a unique souvenir, to take with you in memory of your holiday on Elba.

## PRICKLY PEAR

Renowned for its nourishing properties, rich in vitamins and minerals that promote skin renewal, prickly pear fresh gel (manually extracted from the leaf) is a particularly beneficial ingredient in case of frequent cleansing or exposure to dehydrating agents, such as sun, chlorine and salt.

## ROCKROSE

It turns out to be an excellent anti-inflammatory for skin care. Rockrose's essential oil has moisturizing and firming properties and it's admired for being rich in polyphenols. Astringent and traditionally used to ease dry skin and tone.

## ROSEMARY

It brings freshness, elasticity, brightness and protection to the skin, thanks to its high antioxidant content. It has calming and anti-inflammatory properties. Rosemary essential oil has great antiseptic and antibiotic power.

## SAINT JOHN'S WORT

This herb is a strong anti-inflammatory, healing and regenerative of skin tissues. It also has antiseptic and antifungal properties; recommended in case of acne, dermatitis, atopic dermatitis, skin rash and psoriasis.

## WILD LAVENDER

Just as the French Lavender, boasts the *Stoechas* (better known as wild lavender), antiseptic and healing properties, too.

## WILD MARIGOLD

The fundamental virtue of marigold is that of being able to give relief to the skin, thanks to her resolute anti-inflammatory, antiseptic and healing power. It is a real cure-all for eczema, acne or dermatosis, dry, cracked and reddened skin.

## WILD MYRTLE

In case of irritation and rednesses, myrtle is also an excellent remedy for tired skin. Refreshing.
